Recycling Europe at a glance

80 members

24 EU and EFTA countries

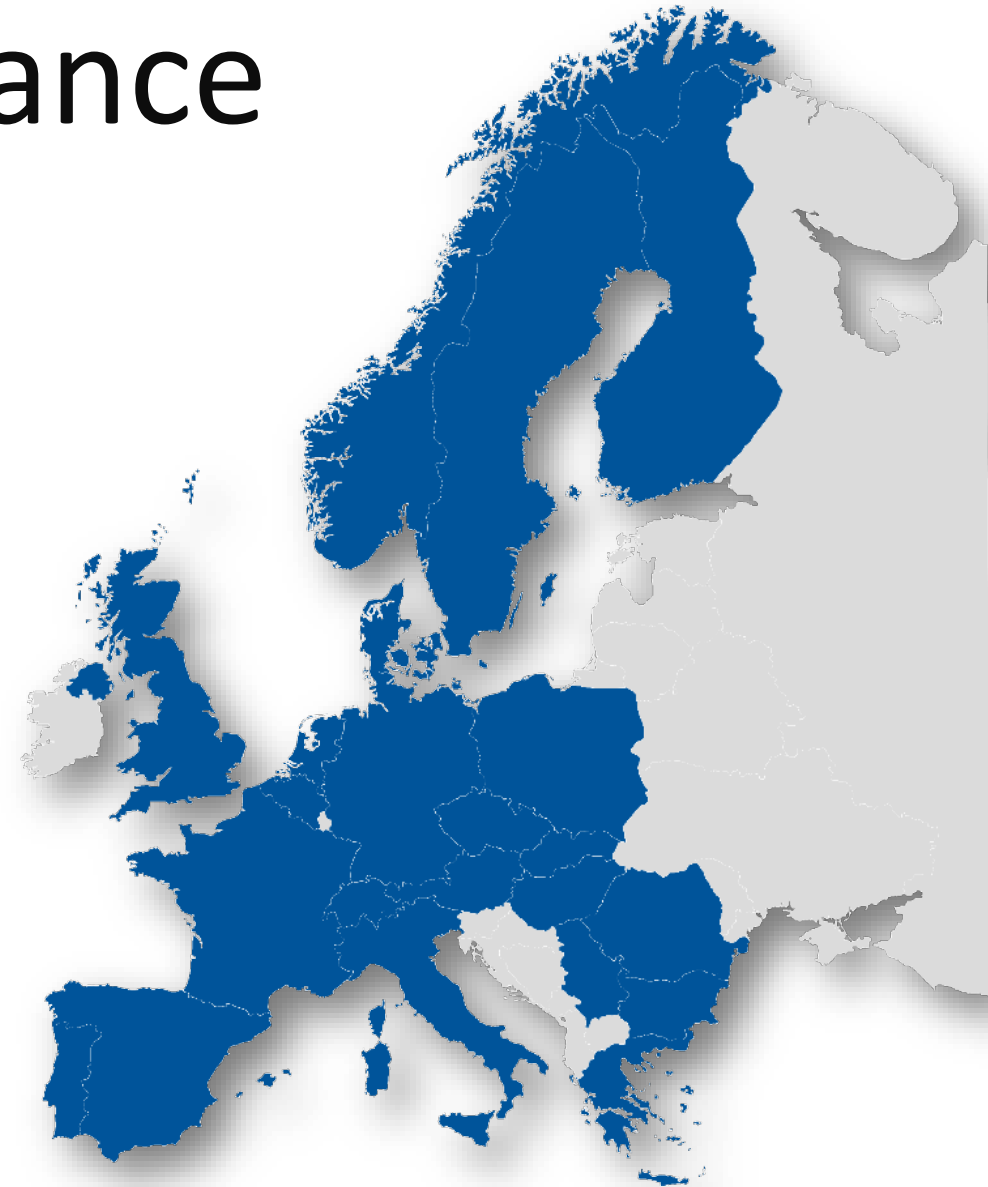

400,000
Green and local jobs

5500+
companies

95 billion euros turnover

Who we are

**Same mission.
Sharper voice.
Stronger impact.**

Recycling Europe (previously *EuRIC*) is the voice of Europe's recyclers, representing 80 national federations and companies across 24 EU and EFTA countries.

From metals and paper to plastics, packaging, textiles, tyres, ships, construction and demolition waste, WEEE, and ELVs, our members transform waste into resources — powering Europe's circular economy, ensuring resource autonomy, and boosting competitiveness and sustainable industrialisation across the continent.

What is ERC

Recycling Europe's trademark annual conference (ERC) connects hundreds of policymakers, industry players, technology providers, market analysts, environmentalists and journalists.

The 8th edition is taking place in **Madrid (IFEMA), Spain, on 10 June 2026** and it is **co-organised with** our founding member from Spain, **FER**, as part of SRR 2026, **which will bring together more than 400 participants and 220 exhibitors from the recovery and recycling sector.**

It also has the support of **14 media outlets**.
